*Lay all parts on a blanket to prevent scratching.
Carefully lift each part*

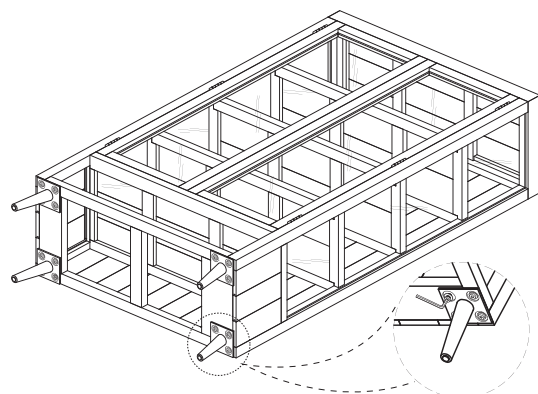

- **Step 1:** Pull the **Drawer** out of the cabinet by turning the drawer's stopper anti-clockwise.

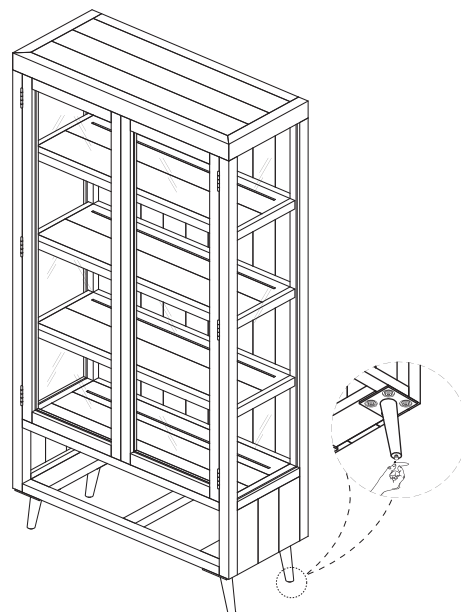

- **Step 2:** Lie the cabinet flat on the ground

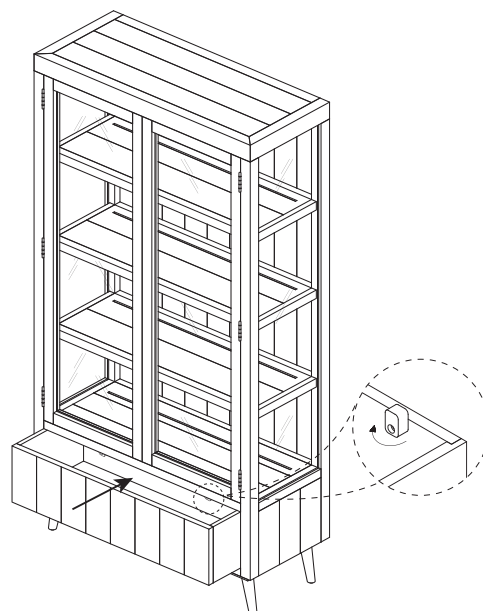

- **Step 3:** Fit the 4 **angle legs** to the cabinet's corner locations by using bolts and washers. Ensure that the legs point to the outside, then tighten the bolts by using the hex key provided.
(note: please match the leg with its number to the top's section that has the same number)

- **Step 4:** Stand the cabinet up, then adjust **the rubber pin** under each leg until each rubber pin touches the ground, so that your cabinet will be in balance.

- **Step 5:** Insert the drawer and turn **the drawer stops** up to prevent the drawers from falling out when you open.

The assembly is now completed!
